# Arteriosclerosis

AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

Index to Volume 5  
January-December 1985

## Subject Index

### A

#### Abetalipoproteinemia

Apo E allele frequency in primary endogenous hypertriglyceridemia (Type IV) with and without hyperapobetalipoproteinemia, 639

Apo E-containing lipoproteins in low or high density lipoprotein deficiency, 371

#### Abstracts, Council on Arteriosclerosis

Abstracts submitted to the 39th Annual Meeting, Council on Arteriosclerosis, American Society for the Study of Arteriosclerosis, Washington, D.C., November 1985, 494a, 643

#### Acetylsalicylic acid

Effect of acetylsalicylic acid on pulmonary arteriosclerosis induced by a one-year *dirofilaria immitis* infection, 355

#### Acyltransferase

Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol acyltransferase. Effects of smoking, alcohol, and adiposity, 169

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

#### Adenosine triphosphate

Platelet activation, 2

#### Affinity chromatography

Apoprotein B-48 is a constant finding in very low density lipoproteins of humans, 88

#### Age

Kinetic mechanisms determining variability in low density lipoprotein levels and rise with age, 623

#### Alcohol

Demographic, behavioral, biochemical, and dietary correlates of plasma triglycerides. Lipid Research Clinics Program Prevalence Study, 466

Effects of apoprotein E polymorphism on serum lipoprotein concentration, 283

Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol acyltransferase. Effects of smoking, alcohol, and adiposity, 169

#### Alleles

Apo E allele frequency in primary endogenous hypertriglyceridemia (Type IV) with and without hyperapobetalipoproteinemia, 639

#### American Heart Association report

Special report. Coronary Risk Factor Statement for the American Public. A statement of the nutrition committee of the American Heart Association, 678A

Special report. Position of the American Heart Association on research animal use. A statement for health professionals by a task force appointed by the Board of Directors of the American Heart Association, 310A

#### American Society for the Study of Arteriosclerosis

Abstracts submitted to the 39th Annual Meeting, Council on

Arteriosclerosis, American Society for the Study of Arteriosclerosis, Washington, D.C., November 1985, 494a

#### Amino acid sequence

Molecular biology in arteriosclerosis research, 213

#### Androgen

Androgen directs apparent cytoplasmic and nuclear distribution of rat cardiovascular androgen receptors, 659

#### Animal research guidelines

Special report. Position of the American Heart Association on research animal use. A statement for health professionals by a task force appointed by the Board of Directors of the American Heart Association, 310A

#### Animal studies, baboon

Cholesterol metabolism in juvenile baboons. Influence of infant and juvenile diets, 347

Effects of two forms of hypertension on atherosclerosis in the hyperlipidemic baboon, 481

Platelet interactions with Dacron vascular grafts. A model of acute thrombosis in baboons, 595

#### Animal studies, cow

Differential effects of human interleukin-1 on growth of human fibroblasts and vascular smooth muscle cells, 186

Smooth muscle cells produce an inhibitor of endothelial cell growth, 110

Verapamil enhances receptor-mediated endocytosis of low density lipoproteins by aortic cells in culture, 35

#### Animal studies, dog

Effect of acetylsalicylic acid on pulmonary arteriosclerosis induced by a one-year *dirofilaria immitis* infection, 355

#### Animal studies, guinea pig

George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569

#### Animal studies, minipig

Topographic study of sudanophilic lesions in cholesterol-fed minipigs by image analysis, 415

#### Animal studies, monkey

Ovariectomy, social status, and atherosclerosis in cynomolgus monkeys, 192

Structural and hemodynamic responses of peripheral arteries of macaque monkeys to atherogenic diet, 336

#### Animal studies, mouse

Lipoprotein levels in genetically selected mice with increased susceptibility to atherosclerosis, 256

#### Animal studies, pig

Aortic atherosclerosis in pigs with heterozygous von Willebrand disease. Comparison with homozygous von Willebrand and normal pigs, 366

Control of monocyte recruitment by chemotactic factor(s) in lesion-prone areas of swine aorta, 55

Reversible high affinity uptake of apo E-free high density lipoproteins in cultured pig hepatocytes, 142

Spontaneous and diet-induced coronary atherosclerosis in normal swine and swine with von Willebrand disease, 67

Transmural organization of the arterial media. The lamellar unit revisited, 19

**Animal studies, pigeon**

Arterial dermatan sulfate proteoglycan structure in pigeons susceptible to atherosclerosis, 101

**Animal studies, rabbit**

Antiatherosclerotic effects of nicardipine and nifedipine in cholesterol-fed rabbits, 250

Correction. Measurement of <sup>125</sup>I-LDL entry into ballooned rabbit aorta using average plasma value, 413

Effect of plasma proteins on endothelial binding and vesicle loading of anionized ferritin in rabbit aorta, 451

George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569

Lesion regression and protein synthesis in rabbits after removal of dietary cholesterol, 74

Metabolism of atherogenic lipoproteins by smooth muscle cells of different phenotype in culture, 318

Platelet and megakaryocyte changes in cholesterol-induced experimental atherosclerosis, 604

Role of the low density lipoprotein receptor in penetration of low density lipoprotein into rabbit aortic wall, 135

Transmural organization of the arterial media. The lamellar unit revisited, 19

**Animal studies, rat**

Androgen directs apparent cytoplasmic and nuclear distribution of rat cardiovascular androgen receptors, 659

Estrogen-mediated cytoplasmic and nuclear distribution of rat cardiovascular estrogen receptors, 668

Transmural organization of the arterial media. The lamellar unit revisited, 19

**Animal studies, squirrel**

George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569

**Antibodies**

Coagulant factor Xa inhibits prostacyclin formation in human endothelial cells. Role of factor V, 244

**Anticoagulant therapy**

Antithrombotic therapy in coronary artery disease, 119

**Antihypertensive drugs**

Plasma lipoprotein levels in treated and untreated hypertensive men and women. The National Heart Foundation of Australia Risk Factor Prevalence Study, 391

**Antiplatelet therapy**

Antithrombotic therapy in coronary artery disease, 119

**Aorta**

Antiatherosclerotic effects of nicardipine and nifedipine in cholesterol-fed rabbits, 250

Aortic atherosclerosis in pigs with heterozygous von Willebrand disease. Comparison with homozygous von Willebrand and normal pigs, 366

Control of monocyte recruitment by chemotactic factor(s) in lesion-prone areas of swine aorta, 55

Correction. Measurement of <sup>125</sup>I-LDL entry into ballooned rabbit aorta using average plasma value, 413

Effect of plasma proteins on endothelial binding and vesicle loading of anionized ferritin in rabbit aorta, 451

Lesion regression and protein synthesis in rabbits after removal of dietary cholesterol, 74

Quantitative ultrastructural analysis of perifibrous lipid and its association with elastin in nonatherosclerotic human aorta, 644

Regulation of high density lipoprotein binding activity of aortic endothelial cells by treatment with acetylated low density lipoprotein, 329

Retro-endocytosis of low density lipoprotein by cultured human skin fibroblasts, 45

Role of the low density lipoprotein receptor in penetration of low density lipoprotein into rabbit aortic wall, 135

Smooth muscle cells produce an inhibitor of endothelial cell growth, 110

Topographic study of sudanophilic lesions in cholesterol-fed minipigs by image analysis, 415

Transmural organization of the arterial media. The lamellar unit revisited, 19

Verapamil enhances receptor-mediated endocytosis of low density lipoproteins by aortic cells in culture, 35

**Apolipoprotein A-I**

Apo E-containing lipoproteins in low or high density lipoprotein deficiency, 371

Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol acyltransferase. Effects of smoking, alcohol, and adiposity, 169

Lipoprotein levels in genetically selected mice with increased susceptibility to atherosclerosis, 256

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

Molecular biology in arteriosclerosis research, 213

Serum lipids in the Peoples Republic of China. Comparison of Western and Eastern populations, 427

Serum lipoprotein and lipoprotein lipase in overweight, Type II diabetics during and after supplemented fasting, 93

**Apolipoprotein A-I/C-III deficiency**

Apo E-containing lipoproteins in low or high density lipoprotein deficiency, 371

**Apolipoprotein A-II**

Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol acyltransferase. Effects of smoking, alcohol, and adiposity, 169

Molecular biology in arteriosclerosis research, 213

Serum lipoprotein and lipoprotein lipase in overweight, Type II diabetics during and after supplemented fasting, 93

**Apolipoprotein A-IV**

Molecular biology in arteriosclerosis research, 213

**Apolipoprotein B**

Apo E-containing lipoproteins in low or high density lipoprotein deficiency, 371

Relationship of plasma lipoprotein Lp(a) levels to race and to apolipoprotein B, 265

Relative contribution of triglyceride-rich lipoprotein particle size and number to plasma triglyceride concentration, 381

Serum lipids in the Peoples Republic of China. Comparison of Western and Eastern populations, 427

Serum lipoprotein and lipoprotein lipase in overweight, Type II diabetics during and after supplemented fasting, 93

**Apolipoprotein B-48**

Apolipoprotein B-48 and B-100 very low density lipoproteins. Comparison in dysbetalipoproteinemia (Type III) and familial hypertriglyceridemia (Type IV), 201

Apoprotein B-48 is a constant finding in very low density lipoproteins of humans, 88

George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569

Molecular biology in arteriosclerosis research, 213

**Apolipoprotein B-100**

Apolipoprotein B-48 and B-100 very low density lipoproteins. Comparison in dysbetalipoproteinemia (Type III) and familial hypertriglyceridemia (Type IV), 201

Apoprotein B-48 is a constant finding in very low density lipoproteins of humans, 88

George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569

Molecular biology in arteriosclerosis research, 213

**Apolipoprotein C-I**

Lipoprotein levels in genetically selected mice with increased susceptibility to atherosclerosis, 256

Molecular biology in arteriosclerosis research, 213

**Apolipoprotein C-II**

Apo E-containing lipoproteins in low or high density lipoprotein deficiency, 371

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

Molecular biology in arteriosclerosis research, 213

**Apolipoprotein C-III**

Apo E-containing lipoproteins in low or high density lipoprotein deficiency, 371

Molecular biology in arteriosclerosis research, 213

**Apolipoprotein D**

Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol

## B

**Baboon**, See Animal studies, baboon

**Balloon catheter**

Correction. Measurement of  $^{125}\text{I}$ -LDL entry into ballooned rabbit aorta using average plasma value, 413

**Belgian study**

Serum lipids in the Peoples Republic of China. Comparison of Western and Eastern populations, 427

**Bile acids**

Effects of fenofibrate on bile lipid composition, 631

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

**Binding sites**

Androgen directs apparent cytoplasmic and nuclear distribution of rat cardiovascular androgen receptors, 659

Effect of plasma proteins on endothelial binding and vesicle loading of anionized ferritin in rabbit aorta, 451

Estrogen-mediated cytoplasmic and nuclear distribution of rat cardiovascular estrogen receptors, 668

Regulation of high density lipoprotein binding activity of aortic endothelial cells by treatment with acetylated low density lipoprotein, 329

**Blacks**

Relationship of plasma lipoprotein Lp(a) levels to race and to apolipoprotein B, 265

**Blood clotting**

Extracellular matrices and cell adhesion, 581

**Body mass**

Demographic, behavioral, biochemical, and dietary correlates of plasma triglycerides. Lipid Research Clinics Program Prevalence Study, 466

Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol acyltransferase. Effects of smoking, alcohol, and adiposity, 169

Serum lipoprotein and lipoprotein lipase in overweight, Type II diabetics during and after supplemented fasting, 93

**Bowel function**

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

**Brachial artery**

Regional compliance of brachial artery and saline infusion in patients with arteriosclerosis obliterans, 80

**Breast feeding**

Cholesterol metabolism in juvenile baboons. Influence of infant and juvenile diets, 347

## C

**Calcium channel blockers**

Antiatherosclerotic effects of nicardipine and nifedipine in cholesterol-fed rabbits, 250

Verapamil enhances receptor-mediated endocytosis of low density lipoproteins by aortic cells in culture, 35

**Calories, restriction of**

Comparison of clofibrate and caloric restriction on kinetics of very low density lipoprotein triglycerides, 153

**Cardiovascular disease**

Antithrombotic therapy in coronary artery disease, 119

Association of low HDL and HDL<sub>2</sub> cholesterol with coronary heart disease in noninsulin-dependent diabetics, 653

Effect of chronic smoking on fibrinolysis, 443

Impaired glucose tolerance. A target for intervention? 315

Meeting summary. Measuring Psychosocial Variables in Epidemiological Studies of Cardiovascular Disease, 116

Meeting summary. NHLBI Workshop on the Lipid Research Clinics Coronary Primary Prevention Trial, 397

A new concept of impaired glucose tolerance. Relation to cardiovascular risk, 311

Special report. Coronary Risk Factor Statement for the American Public. A statement of the nutrition committee of the American Heart Association, 678A

**Carotid artery bifurcation**

Pulsatile flow and atherosclerosis in the human carotid bifurcation. Positive correlation between plaque location and low and oscillating shear stress, 293

**Catabolism, apoprotein**

Fenofibrate reduces low density lipoprotein catabolism in hypertriglyceridemic subjects, 162

Reversible high affinity uptake of apo E-free high density lipoproteins in cultured pig hepatocytes, 142

**Cell adhesion**

Extracellular matrices and cell adhesion, 581

**Cellular transport**

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

**Chemotaxis**

Control of monocyte recruitment by chemotactic factor(s) in lesion-prone areas of swine aorta, 55

**Children**

Cholesterol metabolism in juvenile baboons. Influence of infant and juvenile diets, 347

Meeting summary. NHLBI Workshop on the Lipid Research Clinics Coronary Primary Prevention Trial, 397

**China study**

Serum lipids in the Peoples Republic of China. Comparison of Western and Eastern populations, 427

**Cholesterol**

Antiatherosclerotic effects of nicardipine and nifedipine in cholesterol-fed rabbits, 250

Aortic atherosclerosis in pigs with heterozygous von Willebrand disease. Comparison with homozygous von Willebrand and normal pigs, 366

Association of low HDL and HDL<sub>2</sub> cholesterol with coronary heart disease in noninsulin-dependent diabetics, 653

Cholesterol metabolism in juvenile baboons. Influence of infant and juvenile diets, 347

Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol acyltransferase. Effects of smoking, alcohol, and adiposity, 169

George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569

Lesion regression and protein synthesis in rabbits after removal of dietary cholesterol, 74

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

Meeting summary. NHLBI Workshop on the Lipid Research Clinics Coronary Primary Prevention Trial, 397

Ovariectomy, social status, and atherosclerosis in cynomolgus monkeys, 192

Plasma lipoprotein levels in treated and untreated hypertensive men and women. The National Heart Foundation of Australia Risk Factor Prevalence Study, 391

Platelet and megakaryocyte changes in cholesterol-induced experimental atherosclerosis, 604

Postheparin plasma triglyceride lipases. Relationships with very low density lipoprotein triglyceride and high density lipoprotein<sub>2</sub> cholesterol, 273

Regulation of high density lipoprotein binding activity of aortic endothelial cells by treatment with acetylated low density lipoprotein, 329

Relationship of plasma lipoprotein Lp(a) levels to race and to apolipoprotein B, 265

Reversible high affinity uptake of apo E-free high density lipoproteins in cultured pig hepatocytes, 142

Serum lipids in the Peoples Republic of China. Comparison of Western and Eastern populations, 427

Serum lipoprotein and lipoprotein lipase in overweight, Type II diabetics during and after supplemented fasting, 93

Special report. Coronary Risk Factor Statement for the American Public. A statement of the nutrition committee of the American Heart Association, 678A

Special report. Lowering blood cholesterol to prevent heart disease. NIH Consensus Development Conference statement, 404

Triglyceride-lowering effect of marine polyunsaturates in patients with hypertriglyceridemia, 459

**Cholesterol, total plasma**

Lipoprotein levels in genetically selected mice with increased susceptibility to atherosclerosis, 256

Ovariectomy, social status, and atherosclerosis in cynomolgus monkeys, 192

**Cholesteryl ester**

Quantitative ultrastructural analysis of periferous lipid and its association with elastin in nonatherosclerotic human aorta, 644

**Chromatography**

Apo E-containing lipoproteins in low or high density lipoprotein deficiency, 371

Apoprotein B-48 is a constant finding in very low density lipoproteins of humans, 88

**Chylomicrons**

George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569

**Cigarettes, See Smoking****Clofibrate**

Comparison of clofibrate and caloric restriction on kinetics of very low density lipoprotein triglycerides, 153

Effects of fenofibrate on bile lipid composition, 631

**Cloning**

Molecular biology in arteriosclerosis research, 213

**Coagulation**

Antithrombotic therapy in coronary artery disease, 119

**Collagen**

Extracellular matrices and cell adhesion, 581

Lesion regression and protein synthesis in rabbits after removal of dietary cholesterol, 74

Platelet activation, 2

Transmural organization of the arterial media. The lamellar unit revisited, 19

**Complementary deoxyribonucleic acid (cDNA)**

Molecular biology in arteriosclerosis research, 213

**Compliance, arterial**

Regional compliance of brachial artery and saline infusion in patients with arteriosclerosis obliterans, 80

**Coronary atherosclerosis**

Antithrombotic therapy in coronary artery disease, 119

Association of low HDL and HDL<sub>2</sub> cholesterol with coronary heart disease in noninsulin-dependent diabetics, 653

Meeting summary. NHLBI Workshop on the Lipid Research Clinics Coronary Primary Prevention Trial, 397

- Special report. Lowering blood cholesterol to prevent heart disease. NIH Consensus Development Conference statement, 404

**National Institutes of Health report**

- Meeting summary. NHLBI Workshop on the Lipid Research Clinics Coronary Primary Prevention Trial, 397
- Special report. Lowering blood cholesterol to prevent heart disease. NIH Consensus Development Conference statement, 404

**Neonatal diet**

- Cholesterol metabolism in juvenile baboons. Influence of infant and juvenile diets, 347

**New Zealand white rabbit**

- George Lyman Duff Memorial Lecture. Role of the liver in atherosclerosis, 569
- Metabolism of atherogenic lipoproteins by smooth muscle cells of different phenotype in culture, 318
- Platelet and megakaryocyte changes in cholesterol-induced experimental atherosclerosis, 604
- Transmural organization of the arterial media. The lamellar unit revisited, 19

**Nicardipine**

- Antiatherosclerotic effects of nicardipine and nifedipine in cholesterol-fed rabbits, 250

**Nifedipine**

- Antiatherosclerotic effects of nicardipine and nifedipine in cholesterol-fed rabbits, 250

**Normolipidemia**

- Kinetic mechanisms determining variability in low density lipoprotein levels and rise with age, 623

**Nuclear extracts**

- Androgen directs apparent cytoplasmic and nuclear distribution of rat cardiovascular androgen receptors, 659
- Estrogen-mediated cytoplasmic and nuclear distribution of rat cardiovascular estrogen receptors, 668

**Nutrition**

- Cholesterol metabolism in juvenile baboons. Influence of infant and juvenile diets, 347
- Special report. Coronary Risk Factor Statement for the American Public. A statement of the nutrition committee of the American Heart Association, 678A

## O

**Obesity**

- Epidemiological correlates of high density lipoprotein subfractions, apolipoproteins A-I, A-II, and D, and lecithin cholesterol acyltransferase. Effects of smoking, alcohol, and adiposity, 169
- Serum lipoprotein and lipoprotein lipase in overweight, Type II diabetics during and after supplemented fasting, 93
- Special report. Coronary Risk Factor Statement for the American Public. A statement of the nutrition committee of the American Heart Association, 678A

**Oligonucleotide probe**

- Molecular biology in arteriosclerosis research, 213

**Ovarioectomy**

- Ovariectomy, social status, and atherosclerosis in cynomolgus monkeys, 192

## P

**Peptides, C**

Effects of apoprotein E polymorphism on serum lipoprotein concentration, 283

**Perifibrous lipid**

Quantitative ultrastructural analysis of perifibrous lipid and its association with elastin in nonatherosclerotic human aorta, 644

**Personality characteristics**

Meeting summary. Measuring Psychosocial Variables in Epidemiological Studies of Cardiovascular Disease, 116

**Phagocytes**

Differential effects of human interleukin-1 on growth of human fibroblasts and vascular smooth muscle cells, 186

**Pharmacologic agents**

Antiatherosclerotic effects of nicardipine and nifedipine in cholesterol-fed rabbits, 250

Antithrombotic therapy in coronary artery disease, 119

Fenofibrate reduces low density lipoprotein catabolism in hypertriglyceridemic subjects, 162

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

**Phenotypes**

Effects of apoprotein E polymorphism on serum lipoprotein concentration, 283

Metabolism of atherogenic lipoproteins by smooth muscle cells of different phenotype in culture, 318

**Phosphatidylcholine/free cholesterol ratio**

Lipoprotein levels in genetically selected mice with increased susceptibility to atherosclerosis, 256

**Pig, See** Animal studies, pig

**Pigeon, See** Animal studies, pigeon

**Plaque location**

Pulsatile flow and atherosclerosis in the human carotid bifurcation. Positive correlation between plaque location and low and oscillating shear stress, 293

**Plasma renin activity**

Effects of two forms of hypertension on atherosclerosis in the hyperlipidemic baboon, 481

**Plasmapheresis**

Selective removal of low density lipoprotein by plasmapheresis in familial hypercholesterolemia, 613

**Platelet-derived growth factor**

Aortic atherosclerosis in pigs with heterozygous von Willebrand disease. Comparison with homozygous von Willebrand and normal pigs, 366

Molecular biology in arteriosclerosis research, 213

**Platelets**

Antithrombotic therapy in coronary artery disease, 119

Aortic atherosclerosis in pigs with heterozygous von Willebrand disease. Comparison with homozygous von Willebrand and normal pigs, 366

Extracellular matrices and cell adhesion, 581

Platelet activation, 2

Platelet and megakaryocyte changes in cholesterol-induced experimental atherosclerosis, 604

Platelet interactions with Dacron vascular grafts. A model of acute thrombosis in baboons, 595

Spontaneous and diet-induced coronary atherosclerosis in normal swine and swine with von Willebrand disease, 67

**Polymorphism**

Apo E allele frequency in primary endogenous hypertriglyceridemia (Type IV) with and without hyperapobetalipoproteinemia, 639

Effects of apoprotein E polymorphism on serum lipoprotein concentration, 283

**Population study**

Association of low HDL and HDL<sub>2</sub> cholesterol with coronary heart disease in noninsulin-dependent diabetics, 653

Demographic, behavioral, biochemical, and dietary correlates of plasma triglycerides. Lipid Research Clinics Program Prevalence Study, 466

Effects of apoprotein E polymorphism on serum lipoprotein concentration, 283

Plasma lipoprotein levels in treated and untreated hypertensive men and women. The National Heart Foundation of Australia Risk Factor Prevalence Study, 391

Postheparin plasma triglyceride lipases. Relationships with very low density lipoprotein triglyceride and high density lipoprotein<sub>2</sub> cholesterol, 273

Serum lipids in the Peoples Republic of China. Comparison of Western and Eastern populations, 427

**Prenatal diagnosis**

Direct fetal blood examination for prenatal diagnosis of homozygous familial hypercholesterolemia, 440

**Propanolamines**

Plasma lipoprotein levels in treated and untreated hypertensive men and women. The National Heart Foundation of Australia Risk Factor Prevalence Study, 391

**Prostacyclin**

Coagulant factor Xa inhibits prostacyclin formation in human endothelial cells. Role of factor V, 244

Prostacyclin production by endothelial cells. Effects of sera from normal and hyperlipidemic subjects, 178

**Proteins**

Arterial dermatan sulfate proteoglycan structure in pigeons susceptible to atherosclerosis, 101

Effect of plasma proteins on endothelial binding and vesicle loading of anionized ferritin in rabbit aorta, 451

Extracellular matrices and cell adhesion, 581

Lesion regression and protein synthesis in rabbits after removal of dietary cholesterol, 74

Meeting summary. Coordinate Regulation of Cholesterol Metabolism, 303

Molecular biology in arteriosclerosis research, 213

Platelet activation, 2

**Proteoglycans**

Extracellular matrices and cell adhesion, 581

**Psychosocial factors**

Meeting summary. Measuring Psychosocial Variables in Epidemiological Studies of Cardiovascular Disease, 116

Ovariectomy, social status, and atherosclerosis in cynomolgus monkeys, 192

**Public health programs**

Meeting summary. NHLBI Workshop on the Lipid Research Clinics Coronary Primary Prevention Trial, 397

**Pulmonary arteriosclerosis**

Effect of acetylsalicylic acid on pulmonary arteriosclerosis induced by a one-year *dirofilaria immitis* infection, 355

**Pulsatile flow**

Pulsatile flow and atherosclerosis in the human carotid bifurcation. Positive correlation between plaque location and low and oscillating shear stress, 293

**Rabbit, See** Animal studies, rabbit

## R

**Race**

Relationship of plasma lipoprotein Lp(a) levels to race and to apolipoprotein B, 265

Serum lipids in the Peoples Republic of China. Comparison of Western and Eastern populations, 427

**Random sample**

Effects of apoprotein E polymorphism on serum lipoprotein concentration, 283

- 238** Histochemical Characterization of Low Density Lipoprotein Receptors in Internalization-Defective Familial Hypercholesterolemia  
**Shigeko Takaichi, Shoji Tajima, Yasuko Miyake, and Akira Yamamoto**
- 244** Coagulant Factor Xa Inhibits Prostacyclin Formation in Human Endothelial Cells. Role of Factor V  
**Asru K. Sinha, Asim K. Dutta-Roy, Hui C. Chiu, Gwendolyn J. Stewart, and Robert W. Colman**
- 250** Antiatherosclerotic Effects of Nicardipine and Nifedipine in Cholesterol-Fed Rabbits  
**Anthony L. Willis, Becky Nagel, Veronica Churchill, Mary Anne Whyte, Donald L. Smith, Ishtiaq Mahmud, and Donald L. Puppione**
- 256** Lipoprotein Levels in Genetically Selected Mice with Increased Susceptibility to Atherosclerosis  
**W. Carl Breckenridge, Alexander Roberts, and Arnis Kuksis**
- 265** Relationship of Plasma Lipoprotein Lp(a) Levels to Race and to Apolipoprotein B  
**John R. Guyton, Gosta H. Dahlen, Wolfgang Patsch, Judith A. Kautz, and Antonio M. Gotto, Jr.**
- 273** Postheparin Plasma Triglyceride Lipases. Relationships with Very Low Density Lipoprotein Triglyceride and High Density Lipoprotein<sub>2</sub> Cholesterol  
**Deborah Applebaum-Bowden, Steven M. Haffner, Patricia W. Wahl, J. Joanne Hoover, G. Russell Warnick, John J. Albers, and William R. Hazzard**
- 283** Effects of Apoprotein E Polymorphism on Serum Lipoprotein Concentration  
**Forbes W. Robertson and Alastair M. Cumming**
- 293** Pulsatile Flow and Atherosclerosis in the Human Carotid Bifurcation. Positive Correlation between Plaque Location and Low and Oscillating Shear Stress  
**David N. Ku, Don P. Giddens, Christopher K. Zarins, and Seymour Glagov**

### **MEETING SUMMARY**

- 303** Coordinate Regulation of Cholesterol Metabolism  
**Ajit Sanghvi, Giovanni Galli, and Terence J. Scallan**

### **SPECIAL REPORT**

- 310A** Position of the American Heart Association on Research Animal Use. A Statement for Health Professionals by a Task Force Appointed by the Board of Directors of the American Heart Association

- 312A** **NEWS FROM THE AMERICAN HEART ASSOCIATION**

## CONTENTS TO VOLUME 5

Volume 5, Number 4, July/August 1985

### EDITORIALS

- 311 A New Concept of Impaired Glucose Tolerance. Relation to Cardiovascular Risk  
**Michael P. Stern, Marc Rosenthal, and Steven M. Haffner**
- 315 Impaired Glucose Tolerance. A Target for Intervention?  
**Peter H. Bennett**

### ARTICLES

- 318 Metabolism of Atherogenic Lipoproteins by Smooth Muscle Cells of Different Phenotype in Culture  
**Julie H. Campbell, Michael F. Reardon, Gordon R. Campbell, and Paul J. Nestel**
- 329 Regulation of High Density Lipoprotein Binding Activity of Aortic Endothelial Cells by Treatment with Acetylated Low Density Lipoprotein  
**Eliot A. Brinton, Richard D. Kenagy, John F. Oram, and Edwin L. Bierman**
- 336 Structural and Hemodynamic Responses of Peripheral Arteries of Macaque Monkeys to Atherogenic Diet  
**Mark L. Armstrong, Donald D. Heistad, Melvin L. Marcus, Marjorie B. Megan, and Donald J. Piegors**
- 347 Cholesterol Metabolism in Juvenile Baboons. Influence of Infant and Juvenile Diets  
**Glen E. Mott, Evelyn M. Jackson, C. Alex McMahan, Cynthia M. Farley, and Henry C. McGill, Jr.**
- 355 Effect of Acetylsalicylic Acid on Pulmonary Arteriosclerosis Induced by a One-Year *Dirofilaria immitis* Infection  
**Clarence A. Rawlings, James C. Keith, Jr., and Robert G. Schaub**
- 366 Aortic Atherosclerosis in Pigs with Heterozygous von Willebrand Disease. Comparison with Homozygous von Willebrand and Normal Pigs  
**Lina Badimon, Peter Steele, Juan-Jose Badimon, E.J. Walter Bowie, and Valentin Fuster**
- 371 Apo E-Containing Lipoproteins in Low or High Density Lipoprotein Deficiency  
**Joyce Corey Gibson, Ardon Rubinstein, W. Virgil Brown, Henry N. Ginsberg, Heiner Greten, Robert Norum, and Herbert Kayden**
- 381 Relative Contribution of Triglyceride-Rich Lipoprotein Particle Size and Number to Plasma Triglyceride Concentration  
**Mary Poapst, Michael Reardon, and George Steiner**
- 391 Plasma Lipoprotein Levels in Treated and Untreated Hypertensive Men and Women. The National Heart Foundation of Australia Risk Factor Prevalence Study.  
**Stephen W. MacMahon, Graham J. Macdonald, and Ralph B. Blacket**

### MEETING SUMMARY

- 397 NHLBI Workshop on the Lipid Research Clinics Coronary Primary Prevention Trial

### SPECIAL REPORT

- 404 Lowering Blood Cholesterol to Prevent Heart Disease. NIH Consensus Development Conference Statement

### Correction

- 413 Measurement of  $^{125}\text{I}$ -LDL Entry into Ballooned Rabbit Aorta Using Average Plasma Value  
**Misbahuddin Alavi and Sean Moore**

- 414A NEWS FROM THE AMERICAN HEART ASSOCIATION

## CONTENTS TO VOLUME 5

**Volume 5, Number 5, September/October 1985**

### **ARTICLES**

- 415** Topographic Study of Sudanophilic Lesions in Cholesterol-Fed Minipigs by Image Analysis  
**J. Fredrick Cornhill, William A. Barrett, Edward E. Herderick, Robert W. Mahley, and Donald L. Fry**
- 427** Serum Lipids in the People's Republic of China. Comparison of Western and Eastern Populations  
**Hugo Kesteloot, Da Xien Huang, Xing Sheng Yang, Jozef Claes, Maryvonne Rosseneu, Jef Geboers, and Jozef V. Joossens**
- 434** Increase in Glycosaminoglycan Synthesis in Familial Hypercholesterolemic Fibroblasts  
**Andreas J. Wieczorek and Nepomuk Zöllner**
- 440** Direct Fetal Blood Examination for Prenatal Diagnosis of Homozygous Familial Hypercholesterolemia  
**Jean Luc de Gennes, Fernand Daffos, François Dairou, François Forestier, Martine Capella-Pavlosky, Jacqueline Truffert, Jean Claude Gaschard, and Yves Darbois**
- 443** Effect of Chronic Smoking on Fibrinolysis  
**Rodger A. Allen, Cornelis Kluft, and Emile J.P. Brommer**
- 451** Effect of Plasma Proteins on Endothelial Binding and Vesicle Loading of Anionized Ferritin in Rabbit Aorta  
**Ann L. Baldwin and Shu Chlen**
- 459** Triglyceride-Lowering Effect of Marine Polyunsaturates in Patients with Hypertriglyceridemia  
**Thomas A.B. Sanders, David R. Sullivan, Jonathan Reeve, and Gilbert R. Thompson**
- 466** Demographic, Behavioral, Biochemical, and Dietary Correlates of Plasma Triglycerides. Lipid Research Clinics Program Prevalence Study  
**Linda D. Cowan, Timothy Wilcosky, Michael H. Criqui, Elizabeth Barrett-Connor, C.M. Suchindran, Robert Wallace, Peter Laskarzewski, and Carolyn Walden**
- 481** Effects of Two Forms of Hypertension on Atherosclerosis in the Hyperlipidemic Baboon  
**Henry C. McGill, Jr., Kenneth D. Carey, C. Alex McMahan, Yolán N. Martínez, Thomas E. Cooper, Glen E. Mott, and Colin J. Schwartz**

### **ABSTRACTS**

- 494a** Abstracts Submitted to the 39th Annual Meeting, Council on Arteriosclerosis, American Society for the Study of Arteriosclerosis, Washington, D.C., November 1985
- 553a** Authors Index to Abstracts
- 566A** **NEWS FROM THE AMERICAN HEART ASSOCIATION**

## CONTENTS TO VOLUME 5

Volume 5, Number 6, November/December 1985

### EDITORIAL

- 567 *Arteriosclerosis: The First Five Years*  
**Edwin L. Bierman, Paul Bornstein, Laurence A. Harker, Arno G. Motulsky, and Russell Ross**

### GEORGE LYMAN DUFF MEMORIAL LECTURE

- 569 *Role of the Liver in Atherosclerosis*  
**Richard J. Havel**

### REVIEW

- 581 *Extracellular Matrices and Cell Adhesion*  
**Erkki Ruoslahti, Edward G. Hayman, and Michael D. Pierschbacher**

### ARTICLES

- 595 *Platelet Interactions with Dacron Vascular Grafts. A Model of Acute Thrombosis in Baboons*  
**Stephen R. Hanson, Herculaas F. Kotze, Brian Savage, and Laurence A. Harker**
- 604 *Platelet and Megakaryocyte Changes in Cholesterol-Induced Experimental Atherosclerosis*  
**John F. Martin, David N. Slater, Yehia T. Kishk, and Eric A. Trowbridge**
- 613 *Selective Removal of Low Density Lipoprotein by Plasmapheresis in Familial Hypercholesterolemia*  
**Shinji Yokoyama, Rikurou Hayashi, Makoto Satani, and Akira Yamamoto**
- 623 *Kinetic Mechanisms Determining Variability in Low Density Lipoprotein Levels and Rise with Age*  
**Scott M. Grundy, Gloria Lena Vega, and David W. Bilheimer**
- 631 *Effects of Fenofibrate on Bile Lipid Composition*  
**Robert H. Palmer**
- 639 *Apo E Allele Frequency in Primary Endogenous Hypertriglyceridemia (Type IV) with and without Hyperapobetalipoproteinemia*  
**Suzanne Lussier-Cacan, Daniel Bouthillier, and Jean Davignon**
- 644 *Quantitative Ultrastructural Analysis of Perifibrous Lipid and Its Association with Elastin in Nonatherosclerotic Human Aorta*  
**John R. Guyton, Thomas M.A. Bocan, and Thomas A. Schifani**
- 653 *Association of Low HDL and HDL<sub>2</sub> Cholesterol with Coronary Heart Disease in Noninsulin-Dependent Diabetics*  
**Markku Laakso, Erkki Voutilainen, Kalevi Pyörälä, and Helena Sarlund**
- 659 *Androgen Directs Apparent Cytoplasmic and Nuclear Distribution of Rat Cardiovascular Androgen Receptors*  
**Alan L. Lin, Roberto Gonzalez, Jr., and Sydney A. Shain**
- 668 *Estrogen-Mediated Cytoplasmic and Nuclear Distribution of Rat Cardiovascular Estrogen Receptors*  
**Alan L. Lin and Sydney A. Shain**

### SPECIAL REPORT

- 678A *Coronary Risk Factor Statement for the American Public. A Statement of the Nutrition Committee of The American Heart Association*

### 683A NEWS FROM THE AMERICAN HEART ASSOCIATION

### 678 INDEX TO VOLUME 5
